Local Info

Site name: artlab

Local root folder: sers:pat:Documents:DW2007- ART 198:rees: 

☒ Refresh local file list automatically

Default images folder: t:Documents:DW2007- ART 198:rees:images: 

Links relative to: ☒ Document ☐ Site root

HTTP address: http://artlab.paccd.cc.ca.us/~art198/rees

This address is used for site relative links, and for the Link Checker to detect HTTP links that refer to your own site.

Case-sensitive links: ☐ Use case-sensitive link checking

Cache: ☒ Enable cache

The cache maintains file and asset information in the site. This speeds up the Asset panel, link management, and Site Map features.

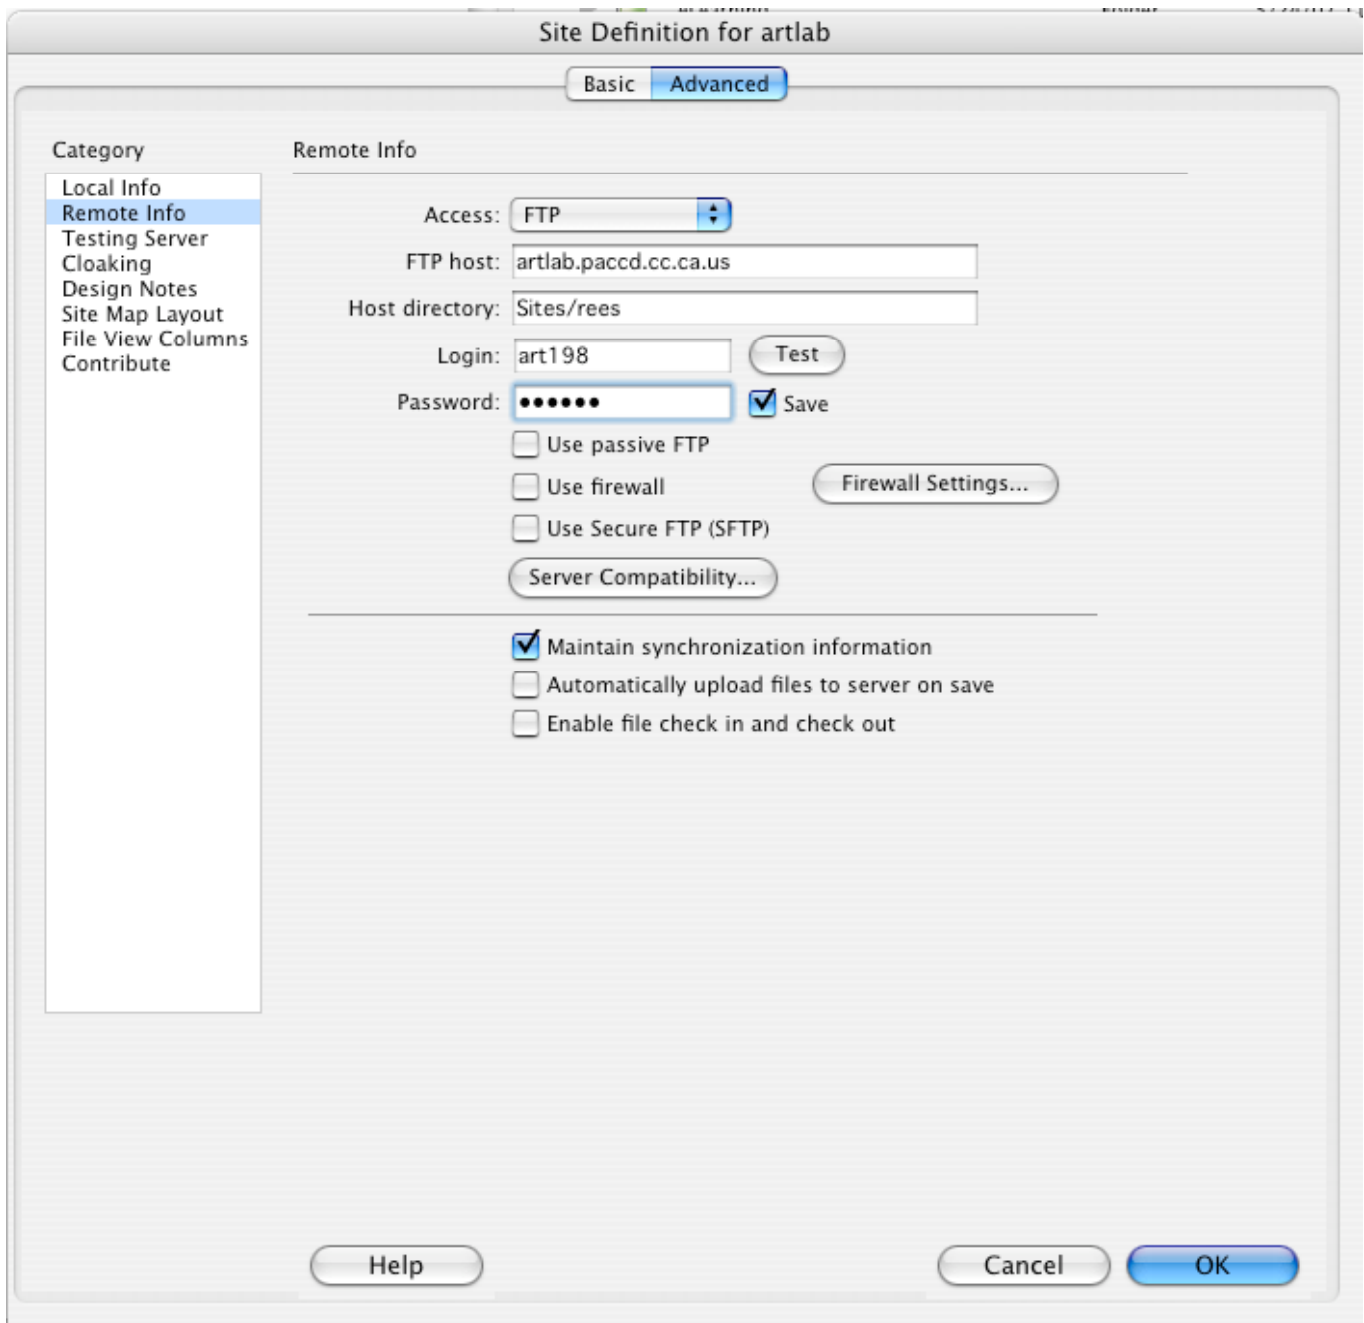

Help Cancel OK

Point to your folder name on your desktop or MyDocuments. Your folder with your website should be named with only your last name. Only your web files should be in this folder, and all your web files should be in this folder. Do not have images or css files in other places outside this folder or your site will be broken when it goes on the server.

Make sure to choose **Links relative to Document**.

The **HTTP address** (the URL for the browser) is: http://artlab.paccd.cc.ca.us/~art198/yourname

Check **Enable Cache** to make things work faster.

Point to the artlab.paccd.cc.ca.us host.

Locate your named folder in the host directory. "Sites" is capitalized.

The password is **obiwan**

You can check Maintain Synchronization information and this will help you know which files need to be updated as you make changes.
